

'git log' visualizar estado de repositorio

The screenshot shows a Udemy course page for 'Git y GitHub: Control de versiones de la A a la Z'. The page includes a search bar, navigation tabs (Descripción general, Preguntas y respuestas, **Notas**, Anuncios), and a list of notes. A terminal window is overlaid on the page, displaying the output of the 'git log' command. The terminal output shows the commit history of the repository, including the commit message 'Fichero de texto de matematicas' and the commit hash '86cb3b4bd7bc8dda061ea197cd3f042de52c7dc5'.

```
(base) joan_amengual@MacBook-Pro-de-Joan-Udemy-Git % git log
commit b5e9ecb1ee4e9416686bfe6b3549aee31b55a2b7 (HEAD -> master)
Author: JoanAmengual <udemjjoanamengual@gmail.com>
Date: Sat Jun 12 19:57:47 2021 +0200

    Fichero de texto de matematicas

commit 86cb3b4bd7bc8dda061ea197cd3f042de52c7dc5
Author: JoanAmengual <udemjjoanamengual@gmail.com>
Date: Sat Jun 12 19:56:35 2021 +0200

    Ficheros: suma, resta y multiplicaciones

commit 84d85b90bc2f3f9376913b004a88603f729b3aa7
Author: Victor Santiago Paulino IPN <vsantiagoop1900@alumno.ipn.mx>
Date: Wed Oct 27 14:31:48 2021 -0500

    Ficheros suma, resta, multiplicaciones

commit 9e876ae8e1a7104423d913e01516b0070effb249
Author: Victor Santiago Paulino IPN <vsantiagoop1900@alumno.ipn.mx>
Date: Wed Oct 27 16:16:29 2021 -0500

    Fichero de divisiones
```

'git checkout -- .' recupera el último commit

The screenshot shows a Google Docs document titled 'Recuperaciones con Git'. The document content includes the text 'git checkout -- .' recupera el último commit'. A terminal window is overlaid on the document, displaying the output of the 'git checkout -- .' command. The terminal output shows the command being executed and the resulting state of the repository. A Windows taskbar notification for 'Alarma' (Alarm) is visible in the bottom right corner, indicating the time is 04:28 p.m. on 27/10/2021.

```
git checkout -- .
$ git checkout -- .
$
```
